## Producer's description

The F-Guard, Model F-Guard IR3-HD, Class 1, Triple IR Flame Detector provides ultra-fast response, high performance and reliable detection of all types of hydrocarbon fires (visible and non-visible). The detector addresses slow growing fires as well as fast eruption of fire using triple IR (IR3) technology. It operates in all weather and light conditions with immunity to false alarms. The detector provides high-definition video output with clear imaging of fire event at up to 100 ft. (30 m), allowing rescuers to know the exact situation before entering the hazardous area. It will automatically record a video of a fire event (1 min pre-alarm/ up to 3 min post-alarm).
