

# CO<sub>2</sub> STORAGE SAFETY ALARM

## Remote CO<sub>2</sub> Storage Safety Dual Alarm

The CO<sub>2</sub> Storage Safety Alarm is designed to protect people who work near carbon dioxide stored in closets or confined spaces. At high levels, CO<sub>2</sub> can result in problems ranging from headaches and fatigue to asphyxiation and even death.

CO<sub>2</sub> alarms are critical in breweries, wineries, beverage dispensing areas, restaurants, fast food establishments, dry ice storage, CO<sub>2</sub> storage tanks, laboratories, or anywhere CO<sub>2</sub> is stored or produced in high volume.

The CO<sub>2</sub> Storage Safety Alarm has both an audible alarm and flashing visual indicator when CO<sub>2</sub> concentrations reach a pre-set level. 2 built in relays can be

used to control a ventilation fan and an HVAC control alarm to notify maintenance staff off site of high CO<sub>2</sub> levels.

Best of all, the CO<sub>2</sub> Storage Safety Alarm is easy to install and use. Simply mount both units on the wall (all cables and hardware included), plug the display unit into a standard wall jack, and the alarm is ready to protect you, your family and your employees.

### KEY FEATURES

- Sensor connects with Remote Display Unit using 26ft (8m) cable (included)
- Up to 3 Remote Display Units can be daisy chained to allow warnings at multiple locations
- Large digital LCD display clearly indicates the current CO<sub>2</sub> level and temperature
- Relay outputs can automatically control a fan or blower to ventilate confined spaces
- 80dB Audible and visual alarm indications
- IP65 Case may be washed down with sensor cover installed (included)
